Chairman's Statement

On behalf of the board of Directors (the "Board") of Wai Chun Mining Industry Group Company Limited (the "Company"). I would like to present the audited consolidated results of the Company and its subsidiaries (collectively the "Group") for the year ended 31 December 2016.

FINANCIAL REVIEW

Financial Performance

For the year ended 31 December 2016, the Group recorded a revenue of approximately HK$464,807,000 from operations (2015: approximately HK$376,808,000), representing an increase of approximately 23.4% as compared to that of 2015. The Group recorded a gross profit and gross profit margin of approximately HK$12,156,000 (2015: approximately HK$1,823,000) and 2.6% (2015: 0.5%) respectively, representing increase of approximately 566.8% and 420.0% respectively as compared to 2015.

Administrative expenses increased by 157.4% from approximately HK$16,902,000 in 2015 to approximately HK$43,502,000 in current year. Such increase is mainly due to share-based payment expenses of approximately HK$23,228,000 recognised for the 699,639,467 share options granted under the Company's share option scheme on 12 January 2016. Selling expenses recorded an increase of 68.8% from approximately HK$3,424,000 in 2015 to approximately HK$5,778,000 in current year.

Loss attributable to owners of the Company for the year amounted to approximately HK$39,169,000 (2015: approximately HK$19,596,000). The increase in the loss was mainly due to (i) the share based payment expenses of approximately HK$23,228,000; (ii) an impairment loss on trade and bills receivables totaling HK$1,942,000 in the modified starch and other biochemical products business and (iii) an impairment loss on deposits, prepayments and other receivables of approximately HK$1,451,000.

Modified starch and other biochemical products business

As a result of higher selling prices and market demand in the PRC during the year, the performance of the modified starch and other biochemical products business have improved when compared to that of 2015, which contributed approximately HK$429,254,000 (2015: approximately HK$292,808,000) and approximately HK$4,743,000 (2015: approximately HK$10,039,000) to the Group's turnover and segment loss respectively, representing an increase of approximately 46.6% in turnover but a narrowing of approximately 52.8% in segment loss when compared to that of 2015.

Footwear business

The footwear business recorded a revenue of approximately HK$755,000 (2015: approximately HK$6,396,000) and a segment loss of approximately HK$6,131,000 in 2016 (2015: approximately HK$5,361,000) respectively, representing a decrease in the turnover of approximately HK$5,641,000 and an increase in segment loss of approximately HK$770,000 respectively when compared to 2015.

General trading business

The general trading business recorded a revenue of approximately HK$34,798,000 (2015: approximately HK$77,604,000) and a segment profit of approximately HK$128,000 in 2016 (2015: approximately HK$343,000) respectively.

Financial Resources and Position

As at 31 December 2016, the Group had net current liabilities of approximately HK$63,001,000 (2015: approximately HK$60,728,000) and cash and cash equivalents of approximately HK$6,464,000 (2015: approximately HK$10,605,000). The Group's cash and cash equivalents are mainly denominated in Hong Kong Dollars, Renminbi and United States Dollars. As at 31 December 2016, the current ratio of the Group was approximately 0.57 times (2015: approximately 0.57 times).

Total debts of the Group amounted to approximately HK$85,464,000 (2015: approximately HK$97,023,000), comprising borrowings of approximately HK$55,854,000 (2015: approximately HK$53,846,000), loans from the ultimate holding company of approximately HK$15,049,000 (2015: approximately HK$26,849,000) and amounts due to a non-controlling shareholder of a subsidiary of approximately HK$14,561,000 (2015: approximately HK$16,328,000). All the above-mentioned borrowings are denominated in Hong Kong Dollars and Renminbi. All of these borrowings are interest bearing at prevailing market interest rates. The net debts (net of cash and cash equivalents) to total assets ratio of the Group is approximately 53.4% (2015: approximately 58.0%), representing a decrease of approximately 4.6% as compared to 2015.

The Group had future minimum lease payments under a non-cancellable operating lease in respect of rented premises amounting to approximately HK$2,657,000 (2015: approximately HK$5,845,000). On the basis of the undrawn loan facilities of approximately HK$110,112,000, granted by its ultimate holding company, Oriental Success Ventures Ltd ("Oriental Success"), which will be provided on a subordinated basis, the Directors believe that the Group has sufficient financial resources for its operations. The Directors will remain cautious in the Group's liquidity management.

Foreign Currency Fluctuation

For the year ended 31 December 2016, the Group conducted its business transactions principally in Renminbi and US dollars. The Group has not experienced any material difficulties or negative impact on its operations as a result of fluctuations in currency exchange rates. Accordingly, the Directors considered that the foreign exchange exposure is relatively limited and no hedging of exchange risk is required. As an internal policy, the Group continues to implement a prudent policy on financial management policy and does not participate in any high risk speculative activities. Nevertheless, the management will continue to monitor the foreign exchange exposure and will take prudent measures when needed.

Pledge of Assets and Contingent Liabilities

As at 31 December 2016, the Group had not provided any financial guarantee and did not have any material contingent liabilities. As at 31 December 2016, the Group's prepaid land lease payments with carrying amount of approximately HK$18,554,000 (2015: approximately HK$21,345,000) were pledged to secure the bank borrowings. As at 31 December 2016, no bank deposits (2015: HK$Nil) have been pledged to secure the bank loans and banking facilities granted to the Group.

Dividend

The Board has resolved not to recommend the payment of final dividend for the year ended 31 December 2016.

BUSINESS REVIEW AND OUTLOOK

During the year under review, the Group continued to engage in the manufacture and sale of modified starch and other biochemical products; the trading of athletic and athletic-style leisure footwear, working shoes, safety shoes, golf shoes and other functional shoes; and general trading.

The business of manufacture and sales of modified starch, and other biochemical products recorded segment loss of approximately HK$4,743,000 (2015: approximately HK$10,039,000). Such a reduction in loss was a result of higher selling prices and market demand in the PRC during the year. The footwear business, which continued to be hampered by low consumer spending and keen competition, recorded segment loss of approximately HK$6,131,000 (2015: approximately HK$5,361,000), whereas the business of general trading recorded segment profit of approximately HK$128,000 during the period (2015: approximately HK$343,000).

During the year under review, the Company has enlarged the capital base by issuing convertible preference shares and actively identified projects with growth potential for acquisition or investment by entering into a conditional sales and purchase agreement for a proposed acquisition.

On 22 January 2016, the Company and Chinese Success Limited (the controlling shareholder of the Company which is in turn wholly owned by Wai Chun Investment Fund, the "Subscriber") entered into a subscription agreement whereby the Subscriber agreed to subscribe for, and the Company agreed to issue and allot, 536,960,000 convertible preference shares ("Convertible Preference Shares") at the issue price of HK$0.05 per convertible preference share for capitalising the loan from the ultimate holding company (the "Shareholder's Loan) ("Loan Capitalisation") in the amount of HK$26,848,000.

By entering into the subscription agreement, the Company settled the Shareholder's Loan without affecting the working capital of the Company. Upon issue of the Convertible Preference Shares, the Shareholder's Loan was derecognised as the liability of the Company and the Convertible Preference Shares was recognised wholly as equity of the Company which in turn reduce the gearing ratio, enlarge the capital base and enhance the net asset position of the Company. In addition, the Company also saves the interest expenses arising from the Shareholder's Loan. The Loan Capitalisation was approved by the Company's shareholders at the extraordinary general meeting held on 8 April 2016.

Moreover, on 18 May 2016, the Company entered into a conditional sales and purchase agreement (the "S&P Agreement") with Wai Chun Investment Fund (the former controlling shareholder of the Company, the "Vendor") pursuant to which the Company has agreed to purchase and the Vendor has agreed to sell the entire issued share capital of Oceanic Chief Limited (the "Target Company") and shareholder's loan (if any), for an aggregate consideration of HK$650 million (subject to valuation) and shall be satisfied by way of issuing of 13,000 million convertible preference shares of the Company (the "Proposed Acquisition"). The Target Company and its subsidiaries (the "Target Group") were granted an exclusive right in the license period of five years (the "License Period") to display the replica of the artwork and models of a world famous artist in new, modern and innovative methods to introduce the world famous artist and offer a complete multidisciplinary experience of introducing his life (the "Exhibition"). The equipment and the materials required for the Exhibition will be provided by the licensor. The Exhibition will be held in the PRC and it is also allowed to be held in Hong Kong and Macau. The Target Group will pay an annual license fee to the licensor during the License Period and is entitled to all sale proceeds of the tickets sold during the License Period. By investing in the Target Company, it is expected that the Company can diversify its revenue sources from the ticket sales and the sales of the exhibition merchandise and expand the business of the Group to the cultural industry. The Proposed Acquisition constitutes a major and connected transaction of the Company and is subject to independent shareholders' approval at a general meeting of the Company. More details of the Proposed Acquisition can be found on the announcements of the Company dated 18 May 2016, 8 June 2016, 29 June 2016, 29 July 2016, 29 August 2016, 29 September 2016, 28 October 2016 and 30 December 2016.

Looking forward, the Company will continue to actively identifying projects with growth potential for acquisition or investment.

More details of the transaction were disclosed in the announcement dated 22 January 2016.

Proposed Acquisition of Oceanic Chief Limited

On 18 May 2016, the Company entered into a conditional sales and purchase agreement with Wai Chun Investment Fund (the controlling shareholder of the Company, the "Vendor") pursuant to which the Company has agreed to purchase and the Vendor has agreed to sell the entire issued share capital of Oceanic Chief Limited and shareholder's loan (if any), for an aggregate consideration of HK$650 million (subject to valuation) and shall be satisfied by way of issuing of 13,000 million convertible preference shares of the Company. More details of the Proposed Acquisition can be found on the announcements of the Company dated 18 May 2016.

Continuing Connected Transaction

A tenancy agreement was entered into between Wai Chun Holdings Group Limited as landlord and Wai Chun Incorporation Limited, a wholly-owned subsidiary of the Company, as tenant on 23 October 2013 in relation to the left portion of 13/F, Admiralty Centre, Tower II, 18 Harcourt Road, Hong Kong, the principal place of business in Hong Kong for a term of two years commencing from 1 November 2015 to 31 October 2017, both days inclusive, with a rental of HK$265,675 per calendar month (equivalent to HK$3,188,100 per annum), exclusive of management fee, rates, government rent, utilities charges and all other outgoing charges per calendar month.

Wai Chun Holdings Group Limited is owned as to 50% by Mr. Lam Ching Kui and as to the remaining 50% by Ms. Chan Oi Mo. Mr. Lam Ching Kui is a controlling shareholder of the Company and is interested in approximately 46.57% of the issued share capital of the Company and Ms. Chan Oi Mo is the spouse of Mr. Lam Ching Kui. Accordingly, Wai Chun Holdings Group Limited is regarded as a connected person of the Company under the Listing Rules. Therefore, the tenancy agreement constitutes a continuing connected transaction for the Company under Rule 14A.14 of the Listing Rules.

The aggregate rental payable under the tenancy agreement per annum, being HK$3,188,100, represents less than 5% of the applicable percentage ratios (as defined in the Listing Rules) for the Company on an annual basis. Accordingly, pursuant to Rule 14A.34 of the Listing Rules, the tenancy agreement is subject to reporting, announcement and annual review requirements but no approval of independent shareholders of the Company is required.

Pursuant to Rule 14A.55 of the Listing Rules, the Independent Non-executive Directors of the Company have reviewed the above continuing connected transaction and in their opinion, the transaction was made:

(1) in the ordinary and usual course of business of the Group;

(2) on normal commercial terms; and

(3) in accordance with the relevant agreement governing it on terms that were fair and reasonable and in the interests of the shareholders of the Company as a whole.

The Board has also confirmed that a letter pursuant to Rule 14A.56 of the Listing Rules has been issued to the Board by the auditor of the Company.

Compliance with Disclosure Requirements

Save as above disclosed in the "Connected Transactions" section and "Rental expenses" in the amount of HK$3,188,000 for the year as shown in note 35 – "Related party transactions" to the consolidated financial statements which constituted connected transactions of the Company under Chapter 14A of the Listing Rules, all other transactions as shown in note 35 are connected transactions exempted from announcement, reporting, annual review and independent shareholders' approval requirements under Chapter 14A of the Listing Rules. The Company has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules in respect of the above connected transactions.

PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors, as at the date of this report, there is sufficient public float of not less than 25% of the Company's issued shares as required under the Listing Rules.

MAJOR CUSTOMERS AND SUPPLIERS

During the year, the five largest customers of the Group accounted for approximately 60% of total turnover and sales to the largest customer accounted for approximately 24%. The five largest suppliers of the Group in aggregate accounted for about 70% of its operating costs for the year. Purchases from the largest supplier accounted for about 56% of its operating costs. None of the Directors, their associates, or any shareholder (who to the knowledge of the Directors owned more than 5% of the Company's share capital) had any interest in the Group's five largest customers or suppliers.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles of Association of the Company, or the laws of the Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities during the year ended 31 December 2016.

TAX RELIEF AND EXEMPTION

The Company is not aware of any tax relief and exemption available to shareholders by reason of their holding of Company Securities.

EMOLUMENT POLICY

As at 31 December 2016, the Group had a total of 150 employees, the majority of whom are situated in the PRC. In addition to offer competitive remuneration packages to employees, discretionary bonuses and share options may also be granted to eligible employees based on individual performance.

The Group also encourages its employees to pursue a balanced life and provides a good working environment for its employees to maximise their potential and contribution to the Group.

The remuneration committee of the Company, having regard to the Company's operating results, individual performance and comparable market statistics, decides the emoluments of the Directors. No Director, or any of his associates, and executive, is involved in dealing his own remuneration.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

Details of the environmental, social and governance of the Group are set out in the section headed "Environmental, Social and Governance Report" in this annual report.

COMPLIANCE WITH LAWS AND REGULATIONS

The Board considers compliance with laws and regulations an important element in the business operation of the Group. The Group's major production facilities and over half of its sales are located in China and compliance with domestic laws and regulations in China is particularly important. The Group has specific personnel to handle and update compliance works in China and they also have the assistance from external legal advisors. The Board considers that the Group's compliance with laws and regulations in China is well monitored.

RELATIONSHIPS WITH STAKEHOLDERS

The Group provides a harmonious and professional working environment to employees and ensures they all are reasonable remunerated. The Company regular reviews and updates its policies on remuneration and benefits, training, occupational health and safety.

The Group also recognises that it is important to maintain good relationship with business partners to achieve its long-term goals. During the year, there was no material and significant dispute between the Group and its business partners.

CORPORATE GOVERNANCE

Details of the corporate governance of the Group are set out in the section headed "Corporate Governance Report" in this annual report.

AUDITOR

The consolidated financial statements for the year ended 31 December 2016 were audited by HLM CPA Limited who will retire and seek for re-election at the forthcoming AGM.

On behalf of the Board

Lam Ching Kui
Chairman

Hong Kong, 21 March 2017

Corporate Governance Report

The Directors and other members of the management team of the Company are dedicated to maintain high standards of corporate governance. They will continue to exercise leadership, enterprise, integrity and judgement so as to achieve continuing prosperity and to act in the best interests of the Company and its shareholders in a transparent and responsible manner. Strategic development with prudence and adherence to ethical principles form the cores of the Company's corporate governance practices.

The Company continues to devote efforts on promoting good corporate governance so as to ensure its ability to attract investment, protect the rights of shareholders and stakeholders, and enhance shareholders' value.

CORPORATE GOVERNANCE

The Company has adopted the code provisions in the Code on Corporate Governance Practices (the "Code") set out in Appendix 14 to the Listing Rules as its own code on corporate governance practices. The Company has taken various measures to cope with the latest development in the corporate governance regime.

The Company complied with the code provisions as set out in the Code throughout the year ended 31 December 2016 except that under code provision A.2.1, the roles of the chairman and chief executive officer should be separated and should not be performed by the same individual. The Company does not at present separate the roles of the chairman and chief executive officer. Mr. Lam Ching Kui is the chairman and chief executive officer of the Company. He has extensive experience in project management and securities investments and is responsible for the overall corporate strategies, planning and business development of the Group. The balance of power and authorities is ensured by the operation of the Board which comprised of experienced and high caliber individuals with sufficient number thereof being independent non-executive directors.

BOARD OF DIRECTORS

Composition of the Board

As at the date of this annual report, the composition of the Board is set out as follows:

Executive Director

Mr. Lam Ching Kui *(Chairman and Chief Executive Officer)*

Independent Non-executive Directors

Mr. Chan Chun Wai, Tony
Mr. Hau Pak Man
Mr. To Yan Ming, Edmond

Responsibilities

The Board has a balance of skill and experience and a balanced composition of Executive and Non-executive Directors and is responsible for oversight of the management of the Company's business and affairs. The Board has delegated the day-to-day responsibility to the Executive Director(s) and senior management of the Company.

The Board, led by the Chairman and the Chief Executive Officer, is responsible for formulation and approval of the Group's development, business strategies, policies, annual budgets and business plans, recommendation of any dividend and supervision of management.

The Chairman and Chief Executive Officer seeks to ensure that all Directors are properly briefed on issues brought up at Board meetings and receive adequate and reliable information in relation to matters discussed at Board meetings and also other affairs of the Group on a timely basis.

The Chairman and Chief Executive Officer is responsible for day-to-day management of the Company's operations, financial management and the effective implementation of the overall strategies and initiatives adopted by the Board.

The Company considers that internal control system and risk management function are essential, and the Board plays an important role in implementing and monitoring internal control system and risk management function.

During the year ended 31 December 2016, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three Independent Non-executive Directors with at least one Independent Non-executive Director possessing appropriate professional qualifications, or accounting or related financial management expertise.

In the course of discharging their duties, the Directors act in good faith, with due diligence and care, and in the best interests of the Company and its shareholders. Their responsibilities include:

- attending regular Board meetings focusing on business strategy, operational issues and financial performance;
- active participation on the boards of subsidiaries and associated companies;
- approval of annual budgets for each operating company covering strategy, financial and business performance, key risks and opportunities;
- monitoring the quality, timeliness, relevance and reliability of internal and external reporting;
- monitoring and managing potential conflicts of interest of the Board, senior management and shareholders;
- consideration of misuse of corporate assets and abuse in related party transactions; and
- ensuring processes are in place to maintain the overall integrity of the Company, including financial statements, relationships with suppliers, customers and other stakeholders, and compliance with all laws and ethics.

To enable the Directors to meet their obligations, an appropriate organisational structure is in place with clearly defined responsibilities and limits of authority.

Appointment, Re-election and Removal of Directors

The appointment of all the Directors, including Independent Non-executive Directors, is for a specific term of not more than three years from date of appointment. The Company's Articles of Association provides for the retirement of Directors by rotation and any new director appointed to fill a casual vacancy shall submit himself/herself for re-election by shareholders at the first general meeting following the appointment.

The procedures and process of appointment, re-election and removal of directors are set out in the Company's Articles of Association. The Board is responsible for the reviewing its composition, monitoring the appointment of directors and assessing the independence of the Independent Non-executive Directors.

Board Meetings

During the year ended 31 December 2016, the Board held four regular board meetings. In addition, board meetings are convened when necessary to deal with everyday matters that require the Board's prompt decision, and are usually attended by Executive Directors only. The Directors attended the meetings in person or through electronic means of communication. The attendance of each Director is set out as follows:

Name of Directors	Number of meetings attended/held
Mr. Lam Ching Kui	4/4
Mr. Chan Chun Wai, Tony	4/4
Mr. Hau Pak Man	4/4
Mr. To Yan Ming, Edmond	4/4

General Meetings

During the year ended 31 December 2016, an annual general meeting and an extraordinary general meeting of the Company were held on 30 June 2016 and 8 April 2016 respectively. The attendance of each Director is set out as follows:

Name of Directors	Number of meetings attended/held
Mr. Lam Ching Kui	2/2
Mr. Chan Chun Wai, Tony	2/2
Mr. Hau Pak Man	1/2
Mr. To Yan Ming, Edmond	1/2

Board Process

Directors are provided with relevant information to make informed decisions. The Board and each Director have separate and independent access to the Company's senior management for information and making enquires if necessary. In addition, Directors may seek independent professional advice in appropriate circumstances at the Company's expenses.

Every Director is entitled to have access to the advice and services of the Company Secretary with a view to ensure that the Board procedures, and all applicable rules and regulations, are complied with. All minutes are kept by the Company Secretary and are opened for inspections by any Director during normal office hours by giving reasonable advance notice.

If a substantial shareholder or a Director has a conflict of interest in a matter before the Board, the matter will be dealt with in accordance with applicable rules and regulations and, if appropriate, an independent board committee will be set up to deal with the matter.

Directors' Training

According to the code provision A.6.5 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant.

All Directors have participated in continuous professional development by way of receiving in-house briefing, taking part in training relating to the Listing Rules and corporate governance matters or attending seminars relating to their role as a director of listed issuer. Each of the Directors has provided a record of training they received for the year ended 31 December 2016 to the Company.

Chairman and Chief Executive Officer

Mr. Lam Ching Kui, the Chairman of the Company, was also appointed as the Chief Executive Officer of the Company. The Board believes that vesting the roles of both chairman and chief executive officer in the same person has the benefit of ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. The Board believes that the balance of power and authority for the present arrangement will not be impaired and is adequately ensured by current Board which comprises experienced and high calibre individuals with sufficient number thereof being Independent Non-executive Directors.

Independent Non-executive Directors

The three Independent Non-executive Directors are persons of high calibre, with academic and professional qualifications in the fields of accounting or electrical engineering. With their experience gained from various sectors, they provide strong support towards the effective discharge of the duties and responsibilities of the Board. Each Independent Non-executive Director has given an annual confirmation of his independence to the Company, and the Company considers each of them to be independent under Rule 3.13 of the Listing Rules.

All Independent Non-executive Directors have been appointed for a term of two years from their date of appointment. Each of the Independent Non-executive Directors is subject to retirement by rotation and re-election at the AGM of the Company in accordance with the Company's Articles of Association.

BOARD COMMITTEES

The Company has set up three committees of the Board, including the Remuneration Committee, Audit Committee and Nomination Committee of the Company, with specific terms of reference relating to their authority and duties, which strengthen the Board's functions and enhance its expertise.

Remuneration committee

The Remuneration Committee comprises one Executive Director and two Independent Non-executive Directors. Mr. Hau Pak Man is the Chairman of the Remuneration Committee.

The primary function of the Remuneration Committee is to make recommendations to the Board on the Company's policy and structure for all remuneration of Directors and senior management. The Company's emolument policy is to ensure that the remuneration offered to employees including Executive Directors and senior management is based on the skills, knowledge, responsibilities and involvement in the Company's affairs. The remuneration packages are also determined by reference to the Company's performance and profitability, remuneration level in the industry and the prevailing market conditions. The emolument policy for Independent Non-executive Directors, mainly comprising Directors' fees, is subject to annual assessment with reference to the market standard. Individual Director and senior management would not be involved in deciding their own remuneration.

The model of remuneration committee described in code provision B.1.2(c)(ii) of the CG Code has been adopted by the Remuneration Committee.

During the year ended 31 December 2016, the Remuneration Committee held one meeting, with attendance record as follows:

Name of Directors	Number of meetings attended/held
Mr. Hau Pak Man *(Chairman)*	1/1
Mr. Lam Ching Kui	1/1
Mr. Chan Chun Wai, Tony	1/1

During the year under review, the Remuneration Committee reviewed matters relating to remuneration packages of Directors and senior management.

Audit committee

The Company has an audit committee (the "Audit Committee") which was established in accordance with the requirements of the Listing Rules for the purpose of reviewing and providing supervision over the Group's financial reporting process and internal controls. A meeting of the Audit Committee was held to review the Group's audited consolidated financial statements for the year ended 31 December 2016, in conjunction with the Group's external auditor, HLM CPA Limited.

During the year ended 31 December 2016, the Audit Committee held two meetings, with attendance record as follows:

Name of Directors	Number of meetings attended/held
Mr. Chan Chun Wai, Tony *(Chairman)*	2/2
Mr. Hau Pak Man	2/2
Mr. To Yan Ming, Edmond	2/2

At the meetings, the Audit Committee reviewed the audited financial statements for the year ended 31 December 2016 and the interim report for the six months ended 30 June 2016 respectively. The Audit Committee has also reviewed the Group accounting principles and practices, Listing Rules and statutory compliance and financial reporting matters. The Audit Committee is satisfied with their review of the independence of the auditor and their audit process for the year ended 31 December 2016.

The Group's results and consolidated financial statements for the year ended 31 December 2016 have been reviewed by the Audit Committee.

Nomination Committee

The Nomination Committee comprises one Executive Director and two Independent Non-executive Directors. Mr. Lam Ching Kui is the Chairman of the Nomination Committee.

The primary function of the Nomination Committee is to make recommendations to the Board on new appointment and re-appointment of directors and senior management. New directors are sought mainly through referrals and internal promotions. In evaluating whether an appointee is suitable to act as a Director, the Board will consider his/her qualifications, experience, expertise and knowledge with reference to the Diversity Policy adopted by the Board during the year and the requirements under the Listing Rules.

During the year ended 31 December 2016, the Nomination Committee held one meeting, with attendance record as follows:

Name of Directors	Number of meetings attended/held
Mr. Lam Ching Kui *(Chairman)*	1/1
Mr. Hau Pak Man	1/1
Mr. Chan Chun Wai, Tony	1/1

Corporate Governance Functions

The Company's corporate governance functions are carried out by the Board in compliance with the CG Code.

The corporate governance functions currently performed by the Board are to develop and review the Company's policies and practices on corporate governance to comply with the CG Code and other legal or regulatory requirements; to oversee the Company's orientation program for new Director; to review and monitor the training and continuous professional development of Directors and senior management; to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and Directors; and to review the Company's disclosure in the Corporate Governance Report.

During the year ended 31 December 2016, the Board has reviewed the Company's policies and practices on corporate governance, the training and continuous professional development of the Directors and senior management as well as the Company's compliance with the CG Code.

COMPANY SECRETARY

During the period from 16 November 2016 to 5 March 2017, the company secretary of the Company was vacant subject to the Company's selection process. Ms. Chu Kwan Yau Janice was appointed as the company secretary of the Company on 6 March 2017 to support the board by ensuring good information flow within the board and the board policy and procedures are followed, advising the board on governance matters, facilitating induction and professional development of directors.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding Directors' securities transactions on terms no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 to the Listing Rules (the "Model Code"). The Company has made specific enquiries to all Directors and all Directors have confirmed with the Company that they have complied with the required standard set out in the Model Code and the Company's code of conduct regarding Directors' securities transactions during the year.

EXTERNAL AUDITOR AND ITS REMUNERATION

HLM CPA Limited, the external auditor of the Company, shall retire and, being eligible, offer themselves for re-appointment. A resolution for the re-appointment of HLM CPA Limited as auditor of the Company is to be proposed at the forthcoming AGM.

HLM CPA Limited provided services in respect of the audit of Company's consolidated financial statements which were prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") for the year ended 31 December 2016. HLM CPA Limited also reviewed the 2016 unaudited interim financial information of the Company, which was prepared in accordance with HKFRSs.

The total fees charged by HLM CPA Limited in respect of audit services for the year ended 31 December 2016 amounted to HK$500,000.

Description of non-audit services performed by HLM CPA Limited	**Fee Paid** *HK$*
Interim review of financial statements of the Company and its subsidiaries for the six months ended 30 June 2016	128,000

DIRECTORS' RESPONSIBILITY IN PREPARING CONSOLIDATED FINANCIAL STATEMENTS

The Directors acknowledge that their responsibilities for preparing the consolidated financial statements and ensuring that the preparation of the accounts is in accordance with statutory requirements and applicable accounting standards.

The statement of the Auditors of the Company regarding their reporting responsibilities for the consolidated financial statements is set out in the Independent Auditor's Report on pages 31 to 37 of this annual report.

GOING CONCERN

The Directors, having made appropriate enquiries, consider that the Company has adequate resources to continue in operational existence for the foreseeable future and that, for this reason, it is appropriate to adopt the going concern basis in preparing the consolidated financial statements.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for the risk management and internal control systems and reviewing their effectiveness on an ongoing basis. Such risk management and internal control systems are designed for managing risks rather than eliminating the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. The objective is to cover all important controls, including financial, operational, compliance, and risk management functions to endure they are in place and functioning effectively for the Group.

The successful management of risk is essential for the long term growth and sustainability of the Group's business. These can only be achievable if certain risks are managed effectively. Effective risk management and strong internal controls are integral to the Group's business model and are reflected in the risk management policy adopted within the business.

Policy

The Group's risk management policy includes the following elements:

- Identification of significant risks in the Group's operation environment and evaluate the impacts of those;
- Develop necessary measure to manage those risks;
- Risk and mitigate measures with risk ownership will be documented in a risk register; and
- Risk register will be monitored and reviewed the effectiveness of such measures regularly.

The Board has delegated the Audit Committee to perform its responsibilities of risk management and internal control systems by performing the following:

- Oversees the Group's risk management and internal control systems on an ongoing basis;
- Reviews the effectiveness of the Group's risk management and internal control systems annually, and such review should cover all material controls including financial, operational and compliance control;
- Considers major findings on risk management and internal control matters, implementation of the mitigation activities by the management team, and reports and makes recommendations to the Board

Internal Audit

The Group's internal audit function is performed by an outsourced internal audit team, which reports directly to the Audit Committee of the Group.

The report provided internal audit findings and any action to be taken by management as a result. These findings and recommendations for improvement will be communicated to the respective management for their responses and corrective actions. The Group's management team monitors the implementation of its recommendations reports the outcome to the Audit Committee.

The Board considers the Group internal control system and risk management is adequate and effective for the financial year.

SHAREHOLDERS' RIGHTS

The general meetings of the Company provide an opportunity for communication between the shareholders and the Board. An AGM of the Company shall be held in each year and at the place as may be determined by the Board. Each general meeting, other than an AGM, shall be called an extraordinary general meeting.

Shareholders to convene an extraordinary general meeting

Shareholders may convene an extraordinary general meeting of the Company according to the provisions as set out in the Articles of Association and the Companies Law of Cayman Islands. The procedures that shareholders can use to convene an extraordinary general meeting are set out in Article 57 of the Company's Articles of Association.

Putting enquiries by shareholders to the Board

Shareholders may send written enquiries to the Company for the attention of the Company Secretary at the Company's principal place of business in Hong Kong.

Procedures for putting forward proposals by shareholders at shareholders' meeting

There are no provisions allowing shareholders to move new resolutions at general meetings under the Cayman Islands Companies Law or the Articles of Association of the Company. Shareholders who wish to move a resolution may request the Company to convene a general meeting following the procedures set out in the preceding paragraph.

CONSTITUTIONAL DOCUMENTS

During the year, there was no significant change in the Company's Memorandum and Articles of Association.

This Environmental, Social and Governance Report ("ESG Report") is compiled in accordance with the guidelines laid down in Appendix 27 Environmental, Social and Governance Reporting Guide ("the Reporting Guide") of the Listing Rules.

The Group has 3 business operations. The main business is manufacturing and sale of modified starch and other biomedical products. They together accounted respectively for over 90% of the Group's total turnover and consolidated asset value in the year ended 31 December 2016. General trading of electronic component parts and electrical appliances and various types of shoes accounted for the remaining turnover and assets.

As of 31 December 2016, the Group has one factory in Shandong ("the Factory") producing modified starch and other biomedical products. The scope of this ESG Report mainly includes data and activities of the Factory and the management headquarter in Hong Kong for the year ended 31 December 2016. Key policies relating to areas covered by this ESG Report could be summarised below:

1. The Group is committed to be a successful operator in our business operations, bringing returns to our investors and supporters, giving a healthy and safe working environment to our employees, and helping to provide sustainable developments for the local communities and the Group.

2. The Board has approved its updated strategies and policies which have incorporated the related environmental and social issues contained in the Reporting Guide. The Board has assigned the various department heads to implement its policies. Through their normal and routine channels, they report directly to the Group CEO, who has the overall responsibility to ensure that the Board's approved strategies and polices are implemented.

3. It is incumbent on the CEO and the management to examine and address all the environmental and social issues spelt out in the aspects and areas in the reporting guide. They are duty bound to explore and develop Key Performance Indicators ("KPIs") where appropriate and necessary for future reference and action in line with the Group policy and goals.

(A) ENVIRONMENTAL ASPECTS

In order to develop a sustainable business, the Group undertakes initiatives to engage in conservation and to promote and undertake environmental protection responsibilities. The Group takes an active role to ensure a sustainable and environmentally-friendly production and operating processes by taking all practicable and possible measures to comply with the relevant national & provincial laws. The Group actively assumes social responsibilities to reduce pollution by setting objectives.

Emissions

There is a clear policy on the control of emission of air and effluent discharge and disposal of hazardous & non-hazardous wastes from the Factory to the environment. The discharges are subjected to the constant inspection and surveillance of the various government departments. There has been no breach or offence spotted by the law enforcing departments on pollution control and emissions. The policy is subject to periodic review at different management levels to cope with any areas warranting our attention and action.

Production wastes discharged from the manufacturing Factory are our major environmental pollution source which could be considered to have a significant impact on our operation. All liquid wastes are collected and disposed of by licensed contractors. Our performance on pollution control in these areas has not given rise to any serious concern to the Group, the local community and public officials.

The types of emissions and emission data of the Factory which are considered of significant impact to our operations are identified and consolidated. They will be used as the baseline in formulating the KPI and in future will be further examined in further details in conjunction with our overall production goals to explore all possible reduction, recycle and reuse measures so as to formulate a practicable approach with achievable goals.

There are no greenhouse gas emissions from the Factory except the indirect gas emission of carbon dioxide (CO_2) as a result of electricity consumption.

All hazardous waste produced in the period were collected and disposed of by licensed contractors. No adverse comments or irregularities have been reported from the internal and external control sources.

Non-hazardous wastes were taken care of by the local waste collector. Contemplations could be given to recycling and reuse in the various processes and stage of production.

Use of Resources

The Group has recently adopted a policy on the efficient use of resources and has experience on the efficient use of energy, water and other raw materials.

All levels of the Group are mindful of the importance of energy saving and its implications to the community and the earth. Measures will be explored and implemented for more appropriate ways and means to reduce, reuse and recycle all energy resources in conjunction with our production needs and goals. Educational programs and instructions are at present the main driving force in this aspect.

The Factory relies totally on city water supply which is the only source for both production and general use. It enjoys constant and reliable supply and incoming quality meets with our production requirements.

The Factory uses packaging materials for the finished products which are consistent with and similar to the trade norm. In sourcing packaging materials, the Group adopts the view that it must be fit for purpose in the first place and meeting with our specification. Non-toxicity and environmental friendliness are in fact our keen concern. They are under the constant attention and review of the various production levels of the Factory.

Environment and Natural Resources

As far as the Factory operation is concerned, fresh water is the only key element which is considered to have an impact on the natural resource. The Group has a clear policy on this. In conjunction with the measures to reduce, reuse and recycle, the Factory is constantly on the alert to look for ways and means to accomplish reduction, reuse and recycling goals. In addition, the Factory is clearly driven by the cost saving incentive to reduce its water consumption which accounts for a fair portion of its production costs. Waste water from the Factory production is considered to be having impact on the environment as far as the Factory operation is concerned. Reduction, reuse and recycle measures where appropriate and practicable are the main approaches which the Group would consider to pursue in the Factory operation in conjunction with our production goals and policy.

(B) SOCIAL EMPLOYMENT AND LABOUR PRACTICES

Employment

The Group has implemented policies and regulations on labour protection emphasising on legal compliance of national laws and local stipulations. They cover, but not limited to, compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination, health and safety and other benefits and welfare. They are clearly stated in the employee handbook and employment contracts, which could be summarised as follows:

(a) The Group ensures that the policies and regulations covering a comprehensive range of employment protection and benefits are in place. They comply with the national labour laws, rules and regulations and any local requirements which are considered to have significant impact to the Group. The Group recognises that staff is an important asset to its success and sustainability and commits to providing equal opportunity to all staffs on recruitment, promotion, compensation and benefits; promoting a harmonious and respectful workplace. All employments are entered into proper and standardised contract in writing between the respective staff and the Group. The human resources department is charged with the prime responsibility and duty to ensure that statutory obligations of the Group are fulfilled and complied with in a timely manner. All qualified job applications, internal transfers and promotions will receive due consideration with no discrimination on age, race, colour, religion, gender, sex or disability basis. No breach of labour laws or labour dispute were recorded both internally and externally.

(b) To ensure a fair and rational human resources structure, the Group has established job qualifications and requirements specific to each job position within the Group. They are taken as criteria for recruitment, promotion and transfer. The recruitment and decision making process will involve both the related department head and the human resources department.

(c) In accordance with the requirements of the laws of Hong Kong and the PRC, where appropriate, the Group provides and maintains statutory benefits to all qualified staff, including but not limited to mandatory provident fund, social security insurance, medical insurance, work injury insurance and compensation and statutory holidays.

(d) Employee remunerations are determined with reference to the prevailing market level in line with their competency, qualifications and experience. Salary will be paid in cash or where practicable credited to the employee bank account within the prescribed agreed period at the end of the wage period. No wage disputes or complaints were recorded.

(e) The Group opens up opportunities for employees to move on in their vertical and horizontal career path.

The Group finds its employee composition natural and normal and detects no anomalies in gender and age.

Health and Safety

The Group undertakes to safeguard the health and safety of its employees. The Employee Handbook sets out detailed occupational safety policies and procedures. Operation manuals for the respective plants and production operations contain safety rules and regulations for safe operations. All employees are required to strictly observe the health and safety policies and to follow safety rules at work and to place safety as their priority over production.

The Group has taken out National Social Securities and Insurance for all qualified employees of the Factory and employee compensation for employees in Hong Kong in accordance with the statutory requirements of the respective places. There were no serious injury incidents or disastrous events which could have significant impact on the production operation of the Factory in the reporting period.

The Group has equipped the Factory and the head office with all the required safety equipment and facilities, and has passed all the governmental safety inspections. In case of accidents, regardless of minor or serious, employees are required by the in-house rules to notify their superiors immediately, who will take appropriate measures to ensure safety is not being compromised.

In-house rules require all injuries or accidents to be promptly and properly dealt with and reported in accordance with the local or national laws as appropriate. Parallel remedial or compensatory actions arising from safety and health issues or work injuries are required to be taken where necessary in accordance with the in-house rules. The Group did not record any claim dispute on compensation or work related injury investigation by the government officials in the reporting period in Hong Kong and in China.

Development and Training

The Factory provides the required level of training in terms of skills and job knowledge, plant operation and production know-hows to employees at various levels so that they are able to perform their required job duties in a competent and capable manner; without risk to their health and safety or damage to plants and operations.

On the job training is also in place to ensure that knowledge and skills are rightly and timely provided to meet production and staff needs. Employees are encouraged to engage in self-development by taking external training programs and seminars which the Group may sponsor the cost of such training programs.

Labour Standards

The Group adopts the national standard as its minimum labour standard on labour protection and welfare and is committed to ensuring its stringent compliance. In addition, the Group adopts a serious view and attaches great importance in the compliance of statutory duties and obligations as an employer.

Banning the employment of child labour and forced labour are achieved through the recruitment and employment process at source. The HR department has been fully charged with this statutory duty and is being oversighted by the senior levels with constant reviews at periodic intervals.

All job applicants are required to submit their credentials like academic qualifications, professional skill certificates, references and identity card for verification and record purpose during recruitment.

The Group strictly adheres to the national laws in labour protection to ensure employee health, safety and welfare during their employment. The Group also pays wages and salaries, benefits, compensation payments and insurances on time within the prescribed period.

The Group honored all of its obligations towards staff and no labour disputes or litigations were reported for the period.

Supply Chain Management

The Group opens its purchase acquisitions to all suppliers on a fair and equitable manner. All purchase transactions are open and transparent. They are subject to the scrutiny of the internal hierarchy supervisions depending on its value and significance and to the overall scrutiny of the external independent audit checks. Many of our purchases for general purpose and use are concluded with suppliers in the nearby areas to support the local economy.

All purchases are executed and recorded in accordance with the in-house rules which predominantly imposes concern and attaches importance on its fit for purpose, safety and reliability. Other secondary considerations are price and availability and reputation of the suppliers. Suppliers are chosen based on their continuous ability to guarantee satisfactory product quantity and quality, reasonable price and timely delivery, and new suppliers are required to provide relevant certifications/documents and track records.

Quality and standard of the raw materials are crucial and instrumental to our output quality and a stringent specification stipulation policy has been applied where applicable in the procurement process. Incoming key materials will be subjected to our own quality assurance check. As far as condition warrants and permits the Group may impose a condition in the procurement documents to reserve the right to inspect and examine the raw materials before purchase.

During the reporting period, the Group mainly purchased raw materials crucial to its factory production from reputable local suppliers with known supply source as far as practicable and possible.

The Group does not foresee its source of supplies to be a potential threat to our factory operation.

Product Responsibilities

The Group sells our products only to local customers. We are committed to providing high quality end products as we realize that the quality and consistency of our products are critical to our ability to retain our customers and to expand market shares. Great importance is attached to the safety standard of our products. The Factory maintains close contacts with our business peers in the trade to keep abreast of the latest product development and knowledge.

To guarantee safety and quality of our products, the Group obtained ISO9001-2008 on quality management certification valid till 24 February 2018, and CNCA/CTS 0010-2008A (CCAA 0005-2014) on food safety management system certification on starch and starch products production and CNCA/CTS 0020-2008A (CCAA 0014-2014) on food safety management system certification on food and feed additives production.

Policies and procedures are in place to ensure that all customer complaints or concerns are addressed at the appropriate levels in a timely manner. Our products are labelled in a manner consistent with trade practice and customer needs. All stipulations for product labelling required by local or overseas laws are strictly adhered to. No breaches or infringements were reported in the year ended 31 December 2016.

The Group does not foresee its product should give rise to any serious privacy issues.

Anti-corruption

The Group is well aware of the importance of honesty, integrity and fairness in its operations and has in place an anti-corruption policy. Employees at all levels are constantly reminded in meetings and documents, such as the staff handbooks of corruption, giving and taking of interests. Staff are required to declare any conflicts of interests in the execution of their roles. Through the establishment of these rules and regulations, we encourage all employees to discharge their duties with integrity and comply with the relevant laws and regulations. Transactions in large monetary sums are processed through bank transactions which require authorised signatories of the appropriate levels depending on the amount involved. Checks and balances have been installed in the Group for money transaction activities and are considered effective and adequate. An external independent auditor has no adverse comment on this aspect. Money laundry should not be our concern and there were no enquiries or concerns from the government or banking officials.

During the reporting period, the Group recorded no bribery nor corruption charges.

Community Investment

The Group fully understands and appreciates the importance of and the need for community investment. Through the day to day contact with the community officials and leaders, the Group explores and examines on what and how the Group can engage in the community. One thing remarkable and fully appreciated by the local community is that most employees of the Factory come from the nearby villages. The Group is committed to developing more community investment opportunities in our development plans.

TO THE MEMBERS OF WAI CHUN MINING INDUSTRY GROUP COMPANY LIMITED
偉俊礦業集團有限公司
(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Wai Chun Mining Industry Group Company Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 38 to 105, which comprise the consolidated statement of financial position as at 31 December 2016, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory notes.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

The accompanying consolidated financial statements for the year ended 31 December 2016 have been prepared assuming that the Group will continue as a going concern. We draw attention to Note 2 to the consolidated financial statements which indicate that the Group incurred a net loss of approximately HK$42,046,000 for the year ended 31 December 2016 and had a net operating cash outflow of approximately HK$14,734,000, and as at that date, the Group had net current liabilities and net liabilities of approximately HK$63,001,000 and HK$11,833,000 respectively, and also, the Group's capital deficiency attributable to owners of the Company was approximately HK$16,190,000. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern. Management's arrangements to address the going concern issue are also described in Note 2 to the consolidated financial statements. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	How our audit addressed the Key Audit Matters
Revenue recognition As set out in note 8 to the consolidated financial statements, revenue recorded for the year ended 31 December 2016 amounted to HK$464,807,000. We identified revenue recognised as a key audit matter as revenue recognised is quantitatively significant to the consolidated statement of profit or loss and other comprehensive income and material revenue transactions may occur close to the end of the reporting period.	Our procedures in relation to revenue recognition included: – Carrying out test of control over revenue recognition, including the timing of revenue recognition. – Performing detailed testing on a sample of sales transactions on the recognition of revenue. In doing so, we have traced from the ledger back to invoices and from invoices to ledger. – Analysing and selecting supporting documents for testing the sales transactions. We verified the journals to originating documentation to confirm the entry was valid. – Performing cut-off test on revenue recognition across the year ended. We found the Group's revenue recognition in relation to sales of goods was supported by the evidence that we gathered.
Share-based payment expenses As set out in note 36 to the consolidated financial statements, share-based payment expenses recorded for the year ended 31 December 2016 amounted to HK$23,228,000. Significant judgement is required for determining its valuation.	Our procedures in relation to management's valuation of share-based payment expenses included: – Evaluation of the independent external valuers' competence, capabilities and objectivity. – Assessing the appropriateness of the parameters used in the valuation. – Assessing the valuation methodology. We found the valuation made by management in assessing the share-based payment expenses to be reasonable based on the evidence obtained. The significant inputs have been disclosed in note 36.

KEY AUDIT MATTERS *(Continued)*

Key Audit Matters	How our audit addressed the Key Audit Matters
Impairment assessments of inventories and prepayment for inventories As at 31 December 2016, the Company held inventories of approximately HK$38,381,000 (2015: HK$36,036,000) and prepayment for inventories of approximately HK$4,828,000 (2015: HK$4,631,000). As described in Note 20 to the consolidated financial statements, inventories are stated at the lower of cost and net realisable value. Judgement is required to determine the appropriate provisions for the inventories.	Our procedures in relation to inventory provision included: – Checking the effectiveness of inventory controls. – Assessing the consistency of provisioning in line with policy and the rationale of the recording of specific provision. – Attending inventory counts at the year end date. – Checking on a sample of raw material that invoiced costs have been correctly recorded and the allocation of directly attributed costs have been correctly calculated. – Testing the provisions calculations and determining that management appropriately took into account the ageing profile of inventory. – Comparing the net realisable value, obtained through a detailed review of sales subsequent to the year-end to the cost price of inventories. – Requesting confirmations for major year end balances. Where confirmations had not been received, we sought explanation from management and checking to invoices, delivery documents and their subsequent settlement after year end date. We found the judgements and estimates made by management in assessing the provision of inventories and prepayment for inventories to be reasonable based on evidence obtained.

KEY AUDIT MATTERS *(Continued)*

Key Audit Matters

Impairment assessment of trade receivables

As set out in note 21 to the consolidated financial statements, impairment loss on trade receivables recorded at 31 December 2016, which represented managements estimates of the amounts which are potentially irrecoverable, amounted to HK$1,942,000 are excluded from the balance of trade receivables.

Management is required to carry out an impairment test, which is judgmental and may be subjected to management bias.

How our audit addressed the Key Audit Matters

Our audit procedures in relation to the management's impairment assessment of trade receivables included:

– Assessing and testing on the process used by the management to develop the estimate for the impairment of trade receivables.

– Requesting confirmations for major year end balances. Where confirmations had not been received, we sought explanation from management and checking to their sales invoices, delivery documents and their subsequent settlement after year end date.

– Reviewing the subsequent settlement of trade receivables which provide evidence of the reasonableness of the estimate made.

We found the judgements and assumption made by management in assessing the provision for impairment of trade receivables to be reasonable based on evidence obtained.

OTHER INFORMATION

The Directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITY OF THE DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

- conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

After completion of the transfer, Oriental Success becomes the ultimate holding company of the Company. The address of the registered office of the Company is Floor 4, Willow House, Cricket Square, P.O. Box 2804, Grand Cayman KY1-1112, Cayman Islands and the principal place of business of the Company is 13/F, Admiralty Centre 2, 18 Harcourt Road, Admiralty, Hong Kong.

The principal activities of the Group are the manufacture and sale of modified starch and other biochemical products, the trading of athletic and athletic-style leisure footwear, working shoes, safety shoes, golf shoes and other functional shoes, and general trading.

The consolidated financial statements are presented in Hong Kong dollars ("HK$"), which is also the functional currency of the Company. In addition, the functional currencies of certain group entities that operate outside Hong Kong are determined based on the currency of the primary economic environment in which the group entities operate.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2016, the Group incurred a loss of approximately HK$42,046,000 and had a net operating cash outflow of approximately HK$14,734,000, and as at that date, the Group had net current liabilities and net liabilities of approximately HK$63,001,000 and HK$11,833,000 respectively, and also, the Group's capital deficiency attributable to owners of the Company was HK$16,190,000. These conditions indicate the existence of material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern and therefore, the Group may not be able to realise its assets and discharge its liabilities in the normal course of business.

In order to ensure the Group's ability to operate as a going concern, the Directors of the Company have been implementing various measures as follow:

(i) As at 31 December 2016, the Company has undrawn loan facilities of approximately HK$110,112,000 granted by Oriental Success, its ultimate holding company, which will be provided on a sub-ordinated basis, i.e. Oriental Success will not demand the Company for repayment of such loans until all the other liabilities of the Group had been satisfied. By way of an assignment of loan agreement dated 2 November 2016, the outstanding loan amount and loan facilities granted by the previous ultimate holding company Wai Chun Investment Fund were assigned to Oriental Success under the same terms and conditions;

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

(ii) In addition to the loan facilities granted by Oriental Success as stated above, the ultimate controlling party has also undertaken to provide adequate funds to enable the Group to meet its liabilities and to pay financial obligations to third parties as and when they fall due so that the Group can continue as a going concern and carry on its business without a significant curtailment of operations for the twelve months from the date of approving the consolidated financial statement;

(iii) The Company has planned and is in negotiation with potential investors to raise sufficient funds through fund raising arrangement; and

(iv) The Directors will continue to implement measures aiming at improving the working capital and cash flows of the Group including closely monitoring general administrative expenses and operating costs.

The Directors have carried out a detailed review of the cash flow forecast of the Group for the twelve months from the date of this report, taking into account the impact of above measures, the Directors of the Company believe that the Group will have sufficient cash resources to satisfy its future working capital and other financing requirements as and when they fall due in the next twelve months from the date of this report, and accordingly, are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Should the Group be unable to continue in business as a going concern, adjustments would have to be made to write down the value of assets to their recoverable amount, to provide for future liabilities which might arise and to reclassify non-current assets and liabilities to current assets and liabilities respectively. The effects of these potential adjustments have not been reflected in these consolidated financial statements.

As set out in the paragraphs above, the Group intends to pursue strategic acquisitions that can enable the Company to capture new business opportunities in the People's Republic of China (the "PRC") market and to strengthen the revenue and profit fundamentals. The Company has been actively identifying projects with growth potential for acquisitions or investments and has engaged in discussions with various parties for such acquisitions or investments.

3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

New and amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") for the first time in the current year:

Amendments to HKFRS 10, HKFRS 12 and HKAS 28 (2011)	Investment Entities: Applying the Consolidation Exception
Amendments to HKFRS 11	Accounting for Acquisitions of Interests in Joint Operations
Amendments to HKAS 1	Disclosure Initiative
Amendments to HKAS 16 and HKAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation
Amendments to HKAS 16 and HKAS 41	Agriculture: Bearer Plants
Amendments to HKFRSs	Annual Improvements to HKFRSs 2012-2014 Cycle
Amendments to HKAS 27	Equity Method in Separate Financial Statements
HKFRS 14	Regulatory Deferral Accounts

The application of the new and amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

New and amendments to HKFRSs issued but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

Amendments to HKAS 7	Disclosure Initiative[1]
Amendments to HKAS 12	Recognition of Deferred Tax Assets for Unrealised Losses[1]
Amendments to HKFRS 2	Clarification and Measurement of Share-based Payment Transactions[2]
Amendments to HKFRS 4	Applying HKFRS 9 Financial Instruments with HKFRS 4 Insurance Contracts[2]
HKFRS 9	Financial Instruments[2]
HKFRS 15	Revenue from Contracts with Customers[2]
HKFRS 16	Leases[3]
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture[4]

1 Effective for annual periods beginning on or after 1 January 2017
2 Effective for annual periods beginning on or after 1 January 2018
3 Effective for annual periods beginning on or after 1 January 2019
4 Effective for annual periods beginning on or after a date to be determined

3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") *(Continued)*

New and amendments to HKFRSs issued but not yet effective *(Continued)*

HKFRS 9 Financial Instruments

HKFRS 9 introduces new requirements for the classification and measurement of financial assets and impairment requirements for financial assets.

Key requirements of HKFRS 9 which are relevant to the Group are:

- all recognised financial assets that are within the scope of HKFRS 9 are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at fair value through other comprehensive income ("FVTOCI"). All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

- in relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The Directors of the Company do not anticipate that the application of HKFRS 9 may have a material impact of the Group's financial statements. However, it is not practical to provide a reasonable estimate of that effect until a detailed review has been completed.

3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") *(Continued)*

New and amendments to HKFRSs issued but not yet effective *(Continued)*

Amendments to HKFRS 2 Clarification and Measurement of Share-based Payment Transactions

The amendments clarify the following:

1. In estimating the fair value of a cash-settled share-based payment, the accounting for the effects of vesting and non-vesting conditions should follow the same approach as for equity-settled share-based payments.

2. Where tax law or regulation requires an entity to withhold a specified number of equity instruments equal to the monetary value of the employee's tax obligation to meet the employee's tax liability which is then remitted to the tax authority, i.e. the share-based payment arrangement has a `net settlement feature', such an arrangement should be classified as equity-settled in its entirety, provided that the share-based payment would have been classified as equity-settled had it not included the net settlement feature.

3. A modification of a share-based payment that changes the transaction from cash-settled to equity-settled should be accounted for as follows:

   (i) the original liability is derecognised;

   (ii) the equity-settled share-based payment is recognised at the modification date fair value of the equity instrument granted to the extent that services have been rendered up to the modification date; and

   (iii) any difference between the carrying amount of the liability at the modification date and the amount recognised in equity should be recognised in profit or loss immediately.

The Directors of the Company do not anticipate that the amendments to HKFRS 2 may have a material impact of the Group's financial statements.

Except as described above, the Directors of the Company do not anticipate that the application of these new and amendments to HKFRSs will have a material effect on the amounts recognised in the Group's consolidated financial statements.

4. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance ("CO").

Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments that are measure at fair value at the end of each reporting period, explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its return.

The Group reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Basis of consolidation *(Continued)*

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in the net assets or liabilities consist of the amount of those interests at the date of the original business combination and their share of changes in equity since the date of the combination.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity including reserves and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted after re-attribution of the relevant equity component, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Investment in subsidiaries

Investment in subsidiaries are stated at cost less any identified impairment loss.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, net of discount and sales related taxes.

Revenue is recognised when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group and when specific criteria have been met for each of the Group's activities, as described below.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Revenue recognition *(Continued)*

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments, including the cost of acquiring land held under operating leases, are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from leased asset are consumed.

Prepaid land lease payments

Prepaid land lease payments represent upfront premium paid for use of land. These payments are stated at cost and are amortised over the period of the lease on a straight-line basis as an expense.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Property, plant and equipment

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes (other than properties under construction as described below), are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on disposal or partial disposal of the Group's interests.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange difference arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Pension schemes and other retirement benefits

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance, for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme, in accordance with the rules of the MPF Scheme.

The employees of the Group's subsidiaries which operate in the PRC are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit or loss because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Taxation *(Continued)*

Deferred tax *(Continued)*

Deferred tax liabilities are recognised for taxable temporary difference associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flow (where effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment on tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimated of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories, including an appropriate portion of fixed and variable overhead expenses, are determined on a weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and deposits held at call with banks, and other short-term highly liquid investment with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Related parties

A related party is a person or that is related to the Group.

(a) A person, or a close member of that person's family, is related to the Group if that person:

(i) has control or joint control over the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Group or the Group's parent.

(b) An entity is related to the Group if any of the following conditions applies:

(i) the entity and the Group are members of the same group (which mean that each parent, subsidiary and fellow subsidiary is related to the others);

(ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);

(iii) the entity and the Group are joint ventures of the same third party;

(iv) one entity is a joint venture of a third entity and other entity is an associate of the third party;

(v) the entity is a post-employment benefit plan for the benefits of employees of either the Group or an entity related to the Group;

(vi) the entity is controlled or jointly controlled by a person identified in (a);

(vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or

(viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with entity.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) ("FVTPL") are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

Financial assets are classified into financial assets at FVTPL and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL, of which interest income is included in net gains or losses.

Financial assets at FVTPL

Financial assets are classified as at FVTPL when the financial asset is either held-for-trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial instruments *(Continued)*

Financial assets *(Continued)*

Financial assets at FVTPL (Continued)

A financial asset other than a financial asset held-for-trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or

- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or

- it forms part of a contract containing one or more embedded derivatives, and HKAS 39 permits the entire combined contract to be designated as at FVTPL.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earning on the financial asset and is included in the "other revenue" line item in the consolidated statement of profit or loss. Fair value is determined in the manner described in note 7(c).

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and bills receivables, deposits and other receivables and bank balances and cash) are measured at amortised cost using the effective interest method, less any impairment.

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the investment have been affected.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial instruments *(Continued)*

Financial assets *(Continued)*

Impairment of financial assets (Continued)

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial asset, such as trade and bills receivables, deposits and other receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods (see the accounting policy below).

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade and other receivables are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial instruments *(Continued)*

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Convertible preference shares

Convertible preference shares are classified as equity if it is non-redeemable and any dividends are discretionary. Dividends on convertible preference shares classified as equity are recognised as distributions within the equity.

Other financial liabilities

Other financial liabilities (including trade and bills payables, other payables, borrowings, amounts due to a non-controlling shareholder of a subsidiary and loans from the ultimate holding company) are subsequently measured at amortised cost, using the effective interest method.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability or, where appropriate, a shorter period, to the net carrying amount on initial recognition. Interest expense is recognised on an effective interest basis.

Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

4. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial instruments *(Continued)*

Financial liabilities and equity instruments *(Continued)*

Derecognition (Continued)

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Share-based payment arrangements

Equity-settled share-based payment transactions

Share options granted to employees

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share capital. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

Share options granted to consultants

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service. The fair values of the goods or services received are recognised as expenses (unless the goods or services qualify for recognition as assets).

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 4, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Depreciation of property, plant and equipment

The Group's carrying amounts of property, plant and equipment as at 31 December 2016 were approximately HK$35,772,000 (2015: approximately HK$35,334,000). The Group depreciates the property, plant and equipment on a straight-line basis over the estimated useful life of 3 years to 20 years and after taking into account of their estimated residual values, using the straight-line method, at the rate of 5% to 33% per annum, commencing from the date in which the property, plant and equipment are available for use. The estimated useful life that the Group places the property, plant and equipment into productive use reflects the Directors' estimate of the periods that the Group intends to derive future economic benefits from the use of the Group's property, plant and equipment.

Impairment loss on trade and other receivables

The Group estimates the impairment allowances for trade and other receivables by assessing the recoverability based on credit history and prevailing market conditions. This requires the use of estimates and judgements. Allowances are applied to trade and other receivables where events or changes in circumstances indicate that the balances may not be collectible. Where the expectation is different from the original estimate, such difference will affect the carrying amounts of trade and other receivables and thus the impairment loss in the period in which such estimate is changed. The Group reassesses the impairment allowances at the end of the each reporting period.

As at 31 December 2016, the carrying amounts of trade and bills receivables and deposits, prepayments and other receivables are approximately HK$26,254,000 (2015: approximately HK$23,461,000) and approximately HK$8,630,000 (2015: approximately HK$7,838,000) respectively, net of accumulated impairment loss of trade and bills receivables and deposits, prepayments and other receivables of approximately HK$9,438,000 (2015: approximately HK$7,496,000) and approximately HK$7,310,000 (2015: approximately HK$5,859,000) respectively.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

Impairment loss on inventories

The management of the Group reviews an ageing analysis of the inventories at the end of reporting period, and identified obsolete and slow-moving inventory items that are no longer suitable for use in production. The management estimates the net realisable value for such finished goods based primarily on the latest invoice prices and current market conditions. The Group carries out an impairment review on a product-by-product basis at the end of reporting period and provides impairment loss on obsolete items.

As at 31 December 2016, the carrying amounts of inventories are approximately HK$38,381,000 (2015: approximately HK$36,036,000), net of write-down of inventories of approximately HK$Nil (2015: approximately HK$3,769,000).

Deferred tax asset

At 31 December 2016, no deferred tax asset has been recognised on the tax losses of approximately HK$152,482,000 (2015: approximately HK$151,405,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future assessable profits or taxable temporary differences will be available in the future. In cases where the estimated future assessable profits or taxable temporary differences are more than those previously estimated, a material recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which the revised estimate takes place.

6. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to owners through the optimisation of the debts and equity balance. The Group's overall strategy remains unchanged from 2015.

The capital structure of the Group consists of net debts (which includes amount due to a non-controlling shareholder of a subsidiary, borrowings and loans from the ultimate holding company, net of bank balances and cash) and total assets.

The Group is not subject to any externally imposed capital requirements.

The Directors of the Company review the capital structure periodically. As part of this review, the Directors consider the cost of capital and the risks associated with each class of capital. Based on the recommendations of the Directors, the Group will balance its overall capital structure through the payment of dividends, sell assets to reduce debts, new share issues as well as the issue of new debt or the redemption of existing debts.

6. CAPITAL RISK MANAGEMENT *(Continued)*

Net debt to total assets ratio

The net debt to total assets ratio at the end of the reporting period was as follows:

	2016 HK$'000	2015 HK$'000
Debts (Note a)	**85,464**	97,023
Bank balances and cash	**(6,464)**	(10,605)

Total assets (Note b)	**148,048**	148,902
Net debt to total assets ratio	**53.4%**	58.0%

Notes:

(a) Debts comprise amount due to a non-controlling shareholder of a subsidiary of approximately HK$14,561,000, borrowings of approximately HK$55,854,000 and loans from the ultimate holding company of approximately HK$15,049,000, as detailed in notes 27, 28 and 29 respectively.

(b) Total assets include all non-current assets and current assets.

(b) Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, financial assets at fair value through profit or loss, bank balances and cash, trade payables and other payables, bank borrowings, amounts due to a non-controlling shareholder of a subsidiary and loans from the ultimate holding company. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include credit risk, market risk (foreign currency risk, interest rate risk) and liquidity risk.

The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Credit risk management

The carrying amounts of trade and other receivables, financial assets at fair value through profit or loss and bank balances, included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

In order to minimise the credit risk, the Group trades only with recognised and creditworthy third parties and the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade and other receivables at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the Directors of the Company consider that the Group's credit risk is significantly reduced.

Receivables balances should be monitored and managed by management on an ongoing basis to ensure the Group's exposure to bad debt is minimised.

The Group has concentration of credit risk as approximately 19% (2015: approximately 41%) and approximately 53% (2015: approximately 72%) of the total trade and bills receivables which was due from the Group's largest customer and the total three largest customers respectively. The Group's concentration of credit risk by geographical locations is mainly in PRC, which accounted for approximately 100% (2015: approximately 95% in PRC) of the trade and bills receivables as at 31 December 2016. They have good historical repayment records and no default in payment.

The credit risk on bank balances is limited because the counterparties are reputable banks located in Hong Kong and the PRC.

None of the Group's financial assets are secured by collateral or other credit enhancements.

The Group has no other significant concentration of credit risk, with exposure spreading over a number of counterparties.

7. FINANCIAL INSTRUMENTS *(Continued)*

(b) Financial risk management objectives and policies *(Continued)*

Foreign currency risk management

The Group is not exposed to significant currency risk as most of its monetary assets and monetary liabilities are denominated in the functional currency of the individual group entity. The management is of the opinion that the Group's exposure to foreign currency risk is minimal. Accordingly, no foreign exchange risk sensitivity analysis is presented. The significant balance carried in the translation reserve account is occasioned by the translation of the financial statements of the Group's subsidiaries into the presentation currency of the consolidated financial statements of the Group at each reporting date.

In the management's opinion, the sensitivity analysis is unrepresentative of inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

Interest rate risk management

The Group's cash flow interest rate risk relates primarily to variable-rate borrowings and cash at bank. It is the Group's policy to keep its borrowings at floating rate of interest so as to minimise the fair value interest rate risk. The Group's exposure to cash flow interest rate risk is minimal.

The Group is also exposed to fair value interest rate risk in relation to loans from the ultimate holding company. The Group currently does not use any derivative contracts to hedge its exposure to fair value interest rate risk. However, the management will consider hedging significant interest rate exposure should the need arise.

Sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 100 basis points (2015: 100 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 100 basis points (2015: 100 basis points) higher/lower and all other variables were held constant, the Group's post-tax loss for the year ended 31 December 2016 would increase/decrease by approximately HK$470,000 (2015: approximately HK$413,000). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

7. FINANCIAL INSTRUMENTS *(Continued)*

(b) Financial risk management objectives and policies *(Continued)*

Liquidity risk management

Liquidity risk is the risk that the Group is unable to meet its current obligations when they fall due. The Group's management policy is to regularly monitor its current and expected liquidity positions to ensure it has sufficient cash to meet its operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all time so that the Group can meet its short-term and long-term funding requirements and does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

The management will also closely monitor the cash flow generated from operations and the Group's needs for different types of external financing and will negotiate for proper facilities and consider proper means of equity financing as appropriate.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

		14,416	13,273	104,262	28,527	160,478	156,561

The Directors of the Company believe that based on the continuous financing support and undrawn facilities granted by its ultimate holding company, Oriental Success, which will be provided on a sub-ordinated basis, the liquidity of the Group will be improved. Therefore, the Directors consider that the Group has sufficient financial resources to satisfy its working capital requirements and payments of liabilities and its forthcoming future capital commitments as and when fall due.

7. FINANCIAL INSTRUMENTS *(Continued)*

(c) Fair value estimation

Some of the Group's financial instruments are measured at fair value at the end of each reporting period on a recurring basis. The following table gives information about how the fair values of these financial instruments are determined (in particular, the valuation techniques and inputs used).

Financial assets	Fair value As at 31 December 2016 HK$'000	2015 HK$'000	Fair value hierarchy	Valuation technique and key inputs
Financial assets at fair value through profit and loss	**1,419**	1,669	Level 1	Quoted prices in active market

At the end of the reporting period, the Group had no Level 2 or 3 fair value measurements financial instruments.

There were no transfers into or out of Level 1 during the year.

Except for the financial assets that are measured at fair value on a recurring basis, the Directors of the Company consider that the carrying amounts of financial assets and financial liabilities recognised in the consolidated financial statements approximate their fair values.

8. TURNOVER

Turnover represents the amounts received and receivable for goods sold net of discounts and sales related taxes. An analysis of the Group's turnover for the year is as follows:

	2016 HK$'000	2015 HK$'000
Turnover from modified starch and other biochemical products	**429,254**	292,808
Turnover from trading of footwear	**755**	6,396

10. SEGMENT INFORMATION

The chief operating decision maker ("CODM") has been identified as the Group's senior executive management. The CODM reviews the Group's internal reporting for resource allocation and assessment of performance.

For management purposes, the Group's reportable segments under HKFRS 8 are as follows:

Modified starch and other biochemical products	–	Manufacture and sale of modified starch and other biochemical products
Footwear	–	Trading of athletic and athletic-style leisure footwear, working shoes, safety shoes, golf shoes and other functional shoes
General trading	–	Trading of electronic parts and components and electrical appliances

The reportable segments have been identified on the basis of internal management reports prepared in accordance with accounting policies which conforming to HKFRSs and these reports are regularly reviewed by the CODM of the Company.

Segment (loss) profit represents loss incurred or profit earned by each segment without allocation of other revenue, central administration costs (including Directors' salaries) and finance costs.

	2016 HK$'000	2015 HK$'000
The income tax expense comprises:		
Current income tax:		
PRC Enterprise Income Tax	**79**	–
Total	**79**	–

No provision for taxation in Hong Kong Profits Tax has been made as the Group has no assessable profits in Hong Kong for both years.

PRC subsidiaries are subject to PRC Enterprise Income Tax at 25% for both years. Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Macau complementary tax is levied at a fixed rate of 12% on the taxable income above MOP600,000 for both years (equivalent to approximately HK$567,000).

12. INCOME TAX EXPENSE *(Continued)*

The income tax expense for the year can be reconciled to the loss before income tax per the consolidated statement of profit or loss as follows:

	2016 HK$'000	2015 HK$'000
Loss before income tax	(42,046)	(25,673)

16. DIVIDEND

No dividend was paid or proposed for ordinary shareholders of the Company during 2016, nor has any dividend been proposed since the end of the reporting period (2015: HK$Nil).

17. LOSS PER SHARE

(a) Basic loss per share

The calculation of the basic loss per share is based on loss attributable to owners of the Company of HK$39,169,000 (2015: HK$19,596,000) and the number of 16,270,685,376 ordinary shares (2015: the weighted average number of 15,956,416,883 ordinary shares) in issue.

	2016 Number of shares	2015 Number of shares
Number of ordinary shares (2015: weighted average number of ordinary shares)		
Issued ordinary shares at 1 January	**16,270,685,376**	15,954,685,376
Effect of conversion of convertible preference shares	**–**	1,731,507
Number of ordinary shares (2015: weighted average number of ordinary shares) at 31 December	**16,270,685,376**	15,956,416,883

(b) Diluted loss per shares

Diluted loss per share is calculated by adjusting the number of ordinary shares outstanding due to the effect of all dilutive potential ordinary shares and the Group's loss attributable to owners of the Company.

The Company has dilutive potential ordinary shares attributable to share options and convertible preference shares. The calculation of diluted loss per share in the current year does not assume the exercise of the share options and the conversion of convertible preference shares since their exercise would result in a decrease in loss per share. Accordingly, the diluted loss per share is same as the basic loss per share.

36. SHARE-BASED PAYMENT TRANSACTIONS

Pursuant to a share option scheme adopted by the shareholders of the Company on 22 July 2015 (the "Share Option Scheme"), the Company may, at their discretion, invite executive or non-executive director, employee (whether full-time or part-time), chief executive, substantial shareholder, consultant, professional and other adviser to take up options.

The subscription price of the Share Option Scheme will be determined at the highest of (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date on which an option is granted; (ii) the average closing prices of the shares as stated in the Stock Exchange's daily quotations sheets for the 5 business days immediately preceding the date on which an option is granted; and (iii) the nominal value of a share.

The total number of shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Group shall not in aggregate exceed 10% of the total number of shares in issue as at the adoption date. Besides, the maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes of the Group in issue shall not exceed 30% of the relevant class of the shares in issue from time to time. The total number of shares issued and to be issued upon exercise of the options granted to each participant in any 12-month period shall not exceed 1% of the total number of shares in issue.

Options granted under the Share Option Scheme must be taken up within 30 days of the grant upon payment of HK$1.00 per grant.

As at 31 December 2016, the number of shares in respect of the options granted and remained outstanding under the Share Option Scheme was 699,639,467, representing 4.3% of the issued shares of the Company. As at the date of this report, the number of shares available for issue under the Share Option Scheme was 927,429,071, representing 5.7% of the issued shares of the Company.

Movements of the Company's share options held by consultants and employee during the year ended 31 December 2016 are set out below:

	Number of share options						
Category of participants	As at 1 January 2016	Granted	Exercised	As at 31 December 2016	Date of grant	Exercise period	Exercise price HK$
Consultants	–	536,932,614	–	536,932,614	12 January 2016	12 January 2016 to 11 January 2021	0.0686
Employee	–	162,706,853	–	162,706,853	12 January 2016	12 January 2016 to 11 January 2021	0.0686
Total	–	699,639,467	–	699,639,467			
Exercise price	–	0.0686	–	0.0686			

36. SHARE-BASED PAYMENT TRANSACTIONS *(Continued)*

On 12 January 2016, the Company granted a total of 699,639,467 share options under the Share Option Scheme to consultants and an employee of the Group. The exercise period of the options is 5 years from the date of grant of the options, i.e. from 12 January 2016 to 11 January 2021. The options will entitle the grantees to subscribe for a total of 699,639,467 new shares of HK$0.0025 each at an exercise price of HK$0.0686 per share.

The fair value of the share options determined at the date of grant was calculated by independent valuer using the binomial option pricing model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

	2016
Exercise price (HK$)	0.0686
Share price at the date of grant (HK$)	0.0660
Dividend yield (%)	–
Expected volatility (%)	93.245
Risk-free interest rate (%)	0.941
Expected life of options (years)	5

The binomial option model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the Directors' best estimate. Changes in variables and assumptions may result in changes in the fair value of the options.

The fair value of the share options granted during the year ended 31 December 2016 was approximately HK$23,228,000. The fair value per option granted was HK cents 3.32. The Group recognised share-based payment expenses of approximately HK$23,228,000 for the year ended 31 December 2016.
